

CMPS 180

Working with PostgreSQL

Create a folder to store your work

1. Open up the Terminal application
2. Login to your AFS home directory:

```
ssh <ucsc_id>@unix.ucsc.edu
```

with your blue password

3. Create a folder for your work

```
> mkdir cmps180
```

```
> cd cmps180
```

```
> mkdir lab1
```

```
> cd lab1
```

Logging into the PostgreSQL server

4. Start the PostgreSQL shell and connect to the class server:

```
> psql -h cmps180-db.lt.ucsc.edu
```

5. Your server name is your ucsc id. Your server password was emailed to you.
6. To exit from psql shell, type `\q` and then press *Enter*.
